

ITALIAN METALWORKERS TAKE THE STREET FOR THE FUTURE OF THE INDUSTRY ON JUNE 14th GENERAL STRIKE CALLED BY FIM – FIOM – UILM

The decision to go on strike and take the street on June 14th in Milan, Florence, Naples is because of the always more incertitude about the future face the decreasing of industrial production, the loss of the value of work, the increasing of accidents and deaths on job.

The government and the enterprises cannot charge on workers the new ongoing crisis: to face the challenges it needs public and private investment for innovation, ecological sustainability, employment, prevention and the safeguard of health and safety.

To relaunch the internal market it's necessary increasing wages, decreasing taxation, guaranteeing welfare state.

.....

It needs immediately a change of course, both from government and from enterprises, and it has urgently to act on following items:

A FUTURE FOR INDUSTRY

Defending and increasing employment through private and public investment, to manufacture with quality and social / environmental sustainability, to relaunch strategical sectors and re-industrializing the crisis areas;

TO INCREASE WAGES

It's necessary increasing wages by national and second level contracts, and through the reduction of taxation on employees;

RIGHTS FOR WORK

Tackling the precarity by means of stabilization of work, erga omnes validity of the national contracts, extending rights to sub contractors' employees, broadening workers' representation and collective participation;

TO NEGOTIATE THE INNOVATION

Redistributing the productivity of new technologies to create new jobs and increasing the salary, reducing working time through the opportunities that tecnology gets available.

FAIR TAXATION

Reducing taxation of employees, fighting tax evasion, stop tax amnesties which reward the wise guys.

SOCIAL JUSTICE

Reforming the unfair Fornero act on pensions, extending and qualifying social supports, guaranteeing to everybody health and qualified instruction by means of public expense;

HEALTH & SAFETY

Investing on workers' health and on work environment, fighting the accident on job by means of prevention and training.
